### **FIRST AUTHOR<sup>1</sup>, SECOND AUTHOR<sup>2</sup>, THIRD AUTHOR<sup>3</sup>**

<sup>1</sup>Address of First Author, E-mail

<sup>2</sup> Address of Second Author, E-mail

<sup>3</sup> Address of Third Author, E-mail

**Abstract-** The abstract should not exceed 200 words and it should condense the essential features of the article, with the focus on the background, methodology, results, conclusions and major findings in the field.

**Key words** - Authors must supply up to six key words along with their manuscript.

### **General Guidelines**

For full articles, the manuscript, written in English, should not exceed 20 pages in length. The manuscript should be typed in 1.5 spacing throughout on A-4 paper. Soft copies of the manuscript must accompany the original and should be sent to the Editor-in-Chief at his address. All pages should be numbered. Abbreviations should be defined the first time they are used in the manuscript and a list of abbreviations used should also be provided.

### **Manuscript Organization**

The manuscript should be divided as: Title page, abstract and the main text. The text may be subdivided further according to the areas to be discussed. This should be followed by the Acknowledgement (if any) and Reference sections. The first page should contain the title, the authors names (initials and surname only), with an asterisk in front of the name of the principal author.

### **Conflict of Interest**

Financial contributions to the work being reported should be clearly acknowledged, as should any potential conflict of interest.

### **Text**

The main text should begin on a separate page and it may be subdivided into separate sections. The article should mention any previous important in the field and contain a comprehensive discussion starting with the general background of the field. It should then go on to discuss the salient features of recent developments. The authors should avoid presenting material which has already been published in previous reviews.

### **Editorial Requirements**

The quality of the illustrations printed in the journal largely depends on the quality of the Diagrams / figures/illustration provided by the author. In preparing artwork or graphics for publication, keep in mind the following points.

- a. Submit the original artwork or a photographic print of the original for publication.
- b. Do not submit photocopies (Hardcopy submission requirement).
